FEATURES & TRAITS

Amphibious

You can breathe air and water.

Darkvision

You have Darkvision with a range of 60 feet.

Keen Senses

You have proficiency in the Perception skill.

Standing Leap

As a Bonus Action, you can jump a number of feet equal to five times your Proficiency Bonus, without provoking Opportunity Attacks. You can use this trait only if your speed is greater than 0. You can use this trait a number of times equal to your Proficiency Bonus, and you regain all expended uses when you finish a Long Rest.

Swimming

You have a Swim Speed equal to your Speed.

Tongue

You can use your elongated tongue to grapple. As a Bonus Action, target one Medium or smaller creature that you can see within 10 feet of you. The target must succeed on a Strength or Dexterity saving throw (it chooses), or it is pulled up to 5 feet closer to you and has the Grappled condition. This grapple ends early if you use your Tongue to grapple another target. The DC for the saving throw and any escape attempts is 8 plus your Strength modifier and Proficiency Bonus.

Wild Shape

Starting at 2nd level, you can use your action to magically assume the shape of a beast that you have seen before. You can use this feature twice. You regain expended uses when you finish a short or long rest. Your druid level determines the beasts you can transform into, as shown in the Beast Shapes table. At 2nd level, for example, you can transform into any beast that has a challenge rating of 1/4 or lower that doesn't have a flying or swimming speed. You can stay in a beast shape for a number of hours equal to half your druid level (rounded down). You then revert to your normal form unless you expend another use of this feature. You can revert to your normal form earlier by using a bonus action on your turn. You automatically revert if you fall unconscious, drop to 0 hit points, or die. While you are transformed, the following rules apply: Your game statistics are replaced by the statistics of the beast, but you retain your alignment, personality, and Intelligence, Wisdom, and Charisma scores. You also retain all of your skill and saving throw proficiencies, in addition to gaining those of the creature. If the creature has the same proficiency as you and the bonus in its stat block is higher than yours, use the creature's bonus instead of yours. If the creature has any legendary or lair actions, you can't use them. When you transform, you assume the beast's hit points and Hit Dice. When you revert to your normal form, you return to the number of hit points you had before you transformed. However, if you revert as a result of dropping to 0 hit points, any excess damage carries over to your normal form. For example, if you take 10 damage in animal form and have only 1 hit point left, you revert and take 9 damage. As long as the excess damage doesn't reduce your normal form to 0 hit points, you aren't knocked unconscious. You can't cast spells, and your ability to speak or take any action that requires hands is limited to the capabilities of your beast form. Transforming doesn't break your concentration on a spell you've already cast, however, or prevent you from taking actions that are part of a spell, such as call lightning, that you've already cast. You retain the benefit of any features from your class, race, or other source and can use them if the new form is physically capable of doing so. However, you can't use any of your special senses, such as darkvision, unless your new form also has that sense. You choose whether your equipment falls to the ground in your space, merges into your new form, or is worn by it. Worn equipment functions as normal, but the DM decides whether it is practical for the new form to wear a piece of equipment, based on the creature's shape and size. Your equipment doesn't change size or shape to match the new

Balm of the Summer Court

At 2nd level, you become imbued with the blessings of the Summer Court. You are a font of energy that offers respite from injuries. You have a pool of fey energy represented by a number of d6s equal to your druid level. As a bonus action, you can choose one creature you can see within 120 feet of you and spend a number of those dice equal to half your druid level or less. Roll the spent dice and add them together. The target regains a number of hit points equal to the total. The target also gains 1 temporary hit point per die spent. You regain all expended dice when you finish a long rest.

Shape Water

Transmutation cantrip

Casting Time: Action

Range: 30 ft

Target:

Components: S

Duration: Instantaneous or 1 hour

Description:

You choose an area of water that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways: You instantaneously move or otherwise change the flow of the water as you direct, up to 5 feet in any direction. This movement doesn't have enough force to cause damage. You cause the water to form into simple shapes and animate at your direction. This change lasts for 1 hour. You change the water's color or opacity. The water must be changed in the same way throughout. This change lasts for 1 hour. You freeze the water, provided that there are no creatures in it. The water unfreezes in 1 hour. If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Thunderclap

Evocation cantrip

Casting Time: Action

Range: Self (5ft emanation)

Target:

Components: S

Duration: Instantaneous

Description:

Each creature in a 5-foot Emanation originating from you must succeed on a Constitution saving throw or take 1d6 Thunder damage. The spell's thunderous sound can be heard up to 100 feet away. ***At Higher Levels:*** The damage increases by 1d6 when you reach levels 5 (2d6), 11 (3d6), and 17 (4d6).

doesn't change size or shape to match the new form, and any equipment that the new form can't wear must either fall to the ground or merge with it.

Equipment that merges with the form has no effect until you leave the form.

Conjuration cantrip

Casting Time: Action

Range: 30ft

Target:

Components: V S M

Duration: Instantaneous

Description:

You cause a cloud of mites, fleas, and other parasites to appear momentarily on one creature you can see within range. The target must succeed on a Constitution saving throw, or it takes 1d6 poison damage and moves 5 feet in a random direction if it can move and its speed is at least 5 feet. Roll a d4 for the direction: 1, north; 2, south; 3, east; or 4, west. This movement doesn't provoke opportunity attacks, and if the direction rolled is blocked, the target doesn't move.

At Higher Levels: The spell's damage increases by 1d6 when you reach 5th level (2d6), 11th level (3d6), and 17th level (4d6).

Speak with Animals

Divination 1

Casting Time: Action or Ritual

Range: Self

Target:

Components: V S

Duration: 10 minutes

Description:

For the duration, you can comprehend and verbally communicate with Beasts, and you can use any of the Influence action's skill options with them. Most Beasts have little to say about topics that don't pertain to survival or companionship, but at minimum, a Beast can give you information about nearby locations and monsters, including whatever it has perceived within the past day.

Cure Wounds

Abjuration 1

Casting Time: Action

Range: Touch

Target:

Components: V S

Duration: Instantaneous

Description:

A creature you touch regains a number of Hit Points equal to 2d8 plus your spellcasting ability modifier.

At Higher Levels: The healing increases by 2d8 for each spell slot level above 1.

SPELLS

Ice Knife

Conjuration 1

Casting Time: Action

Range: 60ft

Target:

Components: S M

Duration: Instantaneous

Description:

You create a shard of ice and fling it at one creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 Piercing damage. Hit or miss, the shard then explodes. The target and each creature within 5 feet of it must succeed on a Dexterity saving throw or take 2d6 Cold damage.

At Higher Levels: The Cold damage increases by 1d6 for each spell slot level above 1.

Thunderwave

Evocation 1

Casting Time: Action

Range: Self (15ft cube)

Target:

Components: V S

Duration: Instantaneous

Description:

You unleash a wave of thunderous energy. Each creature in a 15-foot Cube originating from you makes a Constitution saving throw. On a failed save, a creature takes 2d8 Thunder damage and is pushed 10 feet away from you. On a successful save, a creature takes half as much damage only. In addition, unsecured objects that are entirely within the Cube are pushed 10 feet away from you, and a thunderous boom is audible within 300 feet.

At Higher Levels: The damage increases by 1d8 for each spell slot level above 1.

Augury

Divination 2 (ritual)

Casting Time: 1 minute or Ritual

Range: Self

Target:

Components: V S M

Duration:

Description:

You receive an omen from an otherworldly entity about the results of a course of action that you plan to take within the next 30 minutes. The DM chooses the omen from the Omens table. Omens

Omen For Results That Will Be... Weal Good Woe Bad Weal and woe Good and bad Indifference Neither good nor bad The spell doesn't account for circumstances, such as other spells, that might change the results. If you cast the spell more than once before finishing a Long Rest, there is a cumulative 25 percent chance for each casting after the first that you get no answer.

Barkskin

Transmutation 2

Casting Time: Bonus Action

Range: Touch

Target:

Components: V S M

Duration: 1 hour

Description:

You touch a willing creature. Until the spell ends, the target's skin assumes a bark-like appearance, and the target has an Armor Class of 17 if its AC is lower than that.

Wall of Water

Evocation 3

Casting Time: Action

Range: 60ft

Target:

Components: V S M

Duration: Concentration up to 10 minutes

Description:

You create a wall of water on the ground at a point you can see within range. You can make the wall up to 30 feet long, 10 feet high, and 1 foot thick, or you can make a ringed wall up to 20 feet in diameter, 20 feet high, and 1 foot thick. The wall vanishes when the spell ends. The wall's space is difficult terrain. Any ranged weapon attack that enters the wall's space has disadvantage on the attack roll, and fire damage is halved if the fire effect passes through the wall to reach its target. Spells that deal cold damage that pass through the wall cause the area of the wall they pass through to freeze solid (at least a 5-foot-square section is frozen). Each 5-foot-square frozen section has AC 5 and 15 hit points. Reducing a frozen section to 0 hit points destroys it. When a section is destroyed, the wall's water doesn't fill it.

Call Lightning

Conjuration 3

Casting Time: Action

Range: 120ft

Target:

Components: V S

Duration: Concentration up to 10 minutes

Description:

A storm cloud appears at a point within range that you can see above yourself. It takes the shape of a Cylinder that is 10 feet tall with a 60-foot radius. When you cast the spell, choose a point you can see under the cloud. A lightning bolt shoots from the cloud to that point. Each creature within 5 feet of that point makes a Dexterity saving throw, taking 3d10 Lightning damage on a failed save or half as much damage on a successful one. Until the spell ends, you can take a Magic action to call down lightning in that way again, targeting the same point or a different one. If you're outdoors in a storm when you cast this spell, the spell gives you control over that storm instead of creating a new one. Under such conditions, the spell's damage increases by 1d10.

At Higher Levels: The damage increases by 1d10 for each spell slot level above 3.
